

## Presentation Boards Teacher Information Sheet

Want your students to receive real experience in your interior design class? How about using Presentation Boards to allow students to visually create plans for a design project and present it to the class. This is a great activity for students to use as a semester or final project because it allows them to incorporate everything learned within the class and demonstrate their comprehension of the skills. This project can be done individually or in groups. When done individually, it is always nice to see what different students come up with for the same venue.

Feel free to choose other venues to assign for the students to use but here are some that always turn out great. You also have to choose the budget amount; I usually use \$25,000!

### **Design Project Venue Ideas**

- School Cafeteria
- Library
- Classroom (CTE-since they usually have more equipment)
- Teacher's Lounge
- Business Office
- Small Restaurant
- Home basement

**Feel free to use this project along with the [Design Process Presentation](#).**

P.S. Presentation boards can be used for a variety of projects. They are professional looking and they get you out of the rut of always having students create posters or PowerPoint presentations.

## Interior Design Presentation Boards

Students will create a Presentation Board for a chosen and/or assigned design project. Projects will be graded on and should include the following components. Students will need foam board for the final presentation board.

Points Possible	Performance Task	Points Earned
20 PTS	Budget complete/stayed within budget	
5 PTS	Stated Color scheme and justification	
15 PTS	Used/identified all elements/principles of design (stated)	
10 PTS	Floor plan included and drawn to scale	
10 PTS	Room dimensions labeled	
5 PTS	Pictures/cost of all items needed to be purchase to complete design	
15 PTS	3 or more background materials included on board that is needed for the design (ex. Paint chip, wall paper sample, flooring sample, fabric sample, etc.)	
10 PTS	Justification for why this design is appropriate for the design project. (Use at least 5 vocabulary words)	
5 PTS	Correct spelling and grammar	
5 PTS	Each design aspect properly attached, labeled and neatly assembled on board	
<b>100 PTS</b>	<b>TOTAL POINTS</b>	
	<b>**BONUS**</b>	
10 PTS	Colored Sketch of completed project venue	
5 PTS	Colored One wall elevation sketch	

**This project will be due on \_\_\_\_\_.**
