

Safeguarding the World's Food Supply Food Safety Research Project

Students have been learning about safeguarding the food in their own kitchen, so let's look at those who safeguard food for the world. Along with finding out the effect that these organizations have on our food supply, it will also give students a chance to look at some of the different types of careers that are in the nutrition field that may not be common or known about.

In groups, students are to research one of the following organizations:

- FDA-Food and Drug Administration
- EPA-Environmental Protection Agency
- FSIS-Food Safety and Inspection Service
- CDC-Centers for Disease Control and Prevention
- USDA-United States Department of Agriculture

Students should create a PowerPoint presentation detailing the following:

Possible Points	Performance Task	Points Earned
10 pts	What is the organization responsible for?	
10 pts	The History of the organization	
5 pts	What are some things that they regulate?	
15 pts	How this organization affects the food supply?	
	Career Related Portion	
25 pts	4-6 Career Opportunities within the organization (best if you can choose based on interests)	
15 pts	A Description of those careers	
10 pts	Job requirements-Education/Training needed	
10 pts	Possible salary range	
100 pts	Total Points	

Project will be presented to the class upon completion. Completed project will be due on _____.
